

CHATBOT- HOTEL BOOKING

Step 1: Open Lex and click on create Bot

Step2: Choose Traditional and Fill the Boxes

Click on next for the further progress

The screenshot shows the Amazon Lex console for a bot in the ap-southeast-1 region. The 'Children's Online Privacy Protection Act (COPPA)' section has the 'No' option selected for 'Is use of your bot subject to the Children's Online Privacy Protection Act (COPPA)?'. The 'Idle session timeout' section shows a session timeout of 5 minutes. At the bottom, there are 'Cancel' and 'Next' buttons.

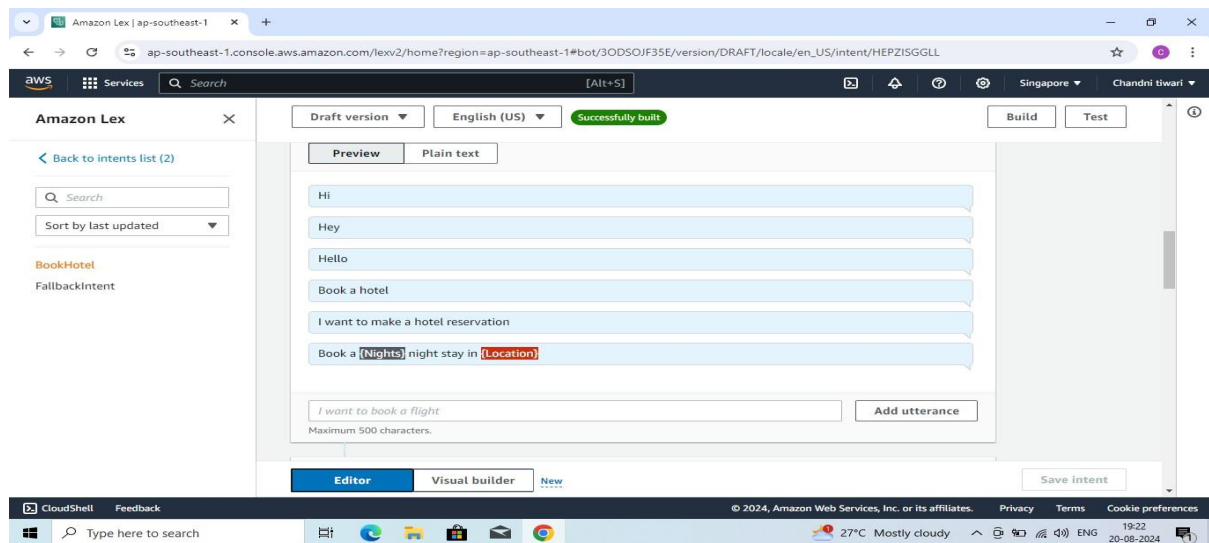

Step 3: Choose Language and voice interaction and click on done.

The screenshot shows the 'Select language' section with 'English (US)' selected. The 'Voice interaction' section shows 'Joanna' selected for the text-to-speech voice. There is a 'Voice sample' section with a text input 'Hello, my name is Joanna. Let me know how I can assist you.' and a 'Play' button. The 'Intent classification confidence score threshold' is set to 0.40. At the bottom, there are 'Cancel', 'Add another language', and 'Done' buttons.

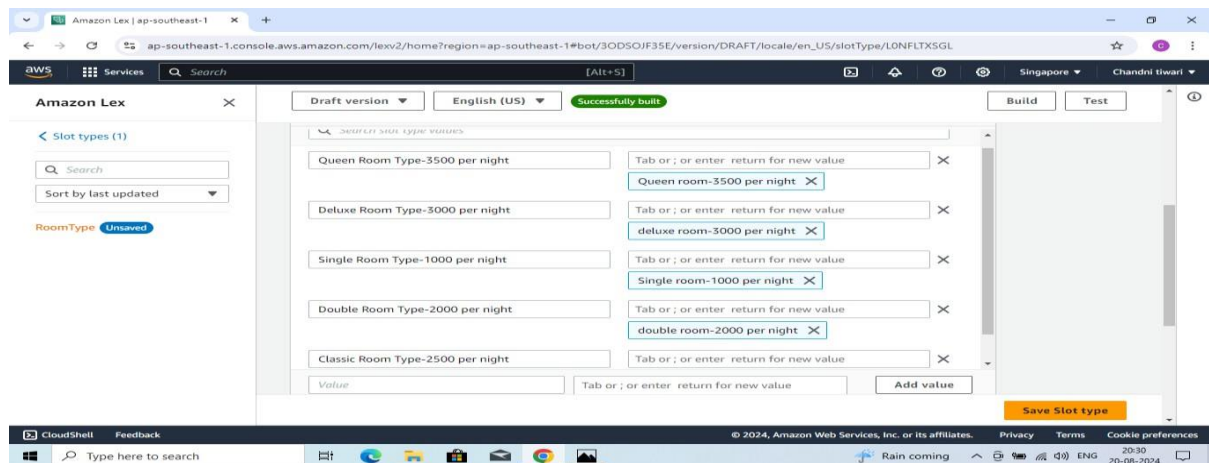

Step 4: Book Hotel Bot successfully

The screenshot shows the Amazon Lex console after successfully creating a bot named 'BookHotel'. A green banner at the top says 'Successfully created bot: BookHotel'. Below it, the 'Intent: NewIntent' details are shown. The 'Intent details' section includes a message 'We've added an intent to get you started.' and a 'Save Intent' button. The 'Conversation flow' section is also visible.
